Work Experience

Fireproof Studio

TECHNICAL ARTIST

Guildford, UK

Mar. 2023 - now

Ghost Town (Unity)

- Contributed to the development of **Ghost Town**, a VR puzzle-adventure game acclaimed for its high visual quality. Fully released on Quest, with the PC version in development and a demo available on Steam.
- Took **primary responsibility for lighting** throughout the project from mid-production to shipment, spanning multiple platforms including Quest and PC. Utilized in-house lighting tools and workflows to light characters, environments, and cinematics, while refining and optimizing the lighting pipeline to achieve visual goals and enhance performance. Lighting quality received widespread praise post-release.
- Engaged in crafting and refining **cinematics**, delivering immersive cutscene animations.
- Authored custom **shaders** to achieve a variety of visual effects.
- Wrote **C# scripts** to support visual functionalities.
- Designed VFX and supported implementation with Unity's **particle** systems.
- Involved in **pipeline optimization** and mentoring artists on the new project, enhancing efficiency and collaboration. Developed user guides and best-practice **documentation** to empower artists using the lighting pipeline.

Unannounced Project (Unity)

- Optimize and manage the **art pipeline**, Coordinate and enforce pipeline standards among artists to maintain asset quality and consistency.
- Design and implement the lighting pipeline for new project.
- Develop **procedural modeling** tools in Blender to accelerate asset creation.

Skills

Art & Design

- skilled in Blender, understanding of Maya, Zbrush, Substance painter, Expertise in Photoshop, Illustrator, After Effect, Premiere.
